

900 series

Flat panel floor stands

The 900 series Flat panel floor stands

The Audipack 900 series is a range of supports and stands for flat panels offering stability combined with flexibility.

It's a concept that meets the functional, technical and aesthetic demands of today's professional presentations.

Audipack®

It's great to have solutions...

Audipack 900 series, designed to be **noticed**

Combining style with strength, the Audipack 900 series flat panel floor stands are easy on the eye and easy to install.

Calling on Audipack's many years of experience with display stands and accessories, the 900 series incorporates numerous clever features, such as an integrated height position ruler and access hatches for cabling.

As with many Audipack stands and brackets, the 900 series is equipped with the Lock&Secure quick mounting system. Once installed, the flat panel is locked firmly in place for safety and security.

Customised versions of the 900 series products are available on request.

The perfect rental combination.

The 900 series quick release floor stands can be separated by hand and fitted into an Audipack flight case along with the flat panel. Available for any screen size.

Flight cases are available in different colours with optional logo prints. Please refer to our separate flight case section on page 181 for more flight case solutions.

- ▲ **Landscape or portrait positioning of the panel**
- ▲ **Integrated yet easily accessible cable channel**
- ▲ **Continuous height adjustment**
- ▲ **Integrated measuring ruler for precise positioning**
- ▲ **Quick locking system**

Easy cable access

Available with
scratch resistant coating

Flat panel position ruler

Quick release,
perfect rental solution

900 SERIES FLOOR STANDS

Mounting interface: L&S 5

Mounting interface: Multi-Vesa

Choose your interface.

The FS series is available with 2 different screen interfaces.

The L&S 5 is the Audipack's AV cross rental solution with a wide variety of installation options on the job. The Multi-Vesa solution is a very cost effective mounting interface based on the Vesa mounting pattern on the screen. With mounting cams the screen can easily be locked in the mounting head.
